

4/19/2010

Dear Patient,

My staff and I are excited to announce that we are moving our office from the current location at Old Springhouse Ln to a new location at 1140 Hammond Dr. After 25 years in the current space, we will miss some of the idiosyncrasies of our old place, but we look forward to our new home. We were able to find a beautiful new office in a great location just over 2 miles away. It's conveniently located on the NE corner of Hammond Dr. and Peachtree-Dunwoody Road. Our building is shared by Piedmont Heart Institute and Uncle Julio's restaurant. The new office is Suite #225 on the second floor. In the center of the building there is an elevator, as well as an outside stairway leading to our entrance.

Please make note of a couple things. First of all, we do have a new logo and name. The reason we are changing to "Perimeter Dental" is because it's easy to remember and recognize. And secondly, we are still the same people here. Crystal and Megan are still providing preventative care, Donna is your first point of contact and Nancy and I are still fixing teeth. Everything is still the same, just a new address.

This announcement may come as a shock or surprise to some of you, for that I apologize. Due to the uncertainty of when construction will begin or complete, I was unable to make a formal declaration of our transition day until the completion date was secure. It seems delays with construction projects are inevitable and our new office was no different. With that said, our office will begin treating patients in the new location beginning May 26th. If you have questions about how to find our new office, you can reach us at the same number 770 452 1170, In addition, we have included a map or if you like, check our new website at [www.perimeterdentalatlanta.com](http://www.perimeterdentalatlanta.com). As with any move, please bear with us as we get acclimated to our new home. We look forward to seeing you in the new office!

Warm Regards,

A handwritten signature in black ink, appearing to read "Nelson Yang". The signature is fluid and cursive, with a long, sweeping underline that extends to the right.

Dr. Nelson Yang DMD
